GET THE PICTURE

- Are you tired of looking through endless stacks of reports each week, month and year??
- Is it hard to find important figures needed to make crucial business decisions??
- Would you like to have your business information presented in a concise, easy-to-read manner??

If you answered YES to any of these questions the ACCU/PLOT-II graphics system is just what you have been waiting for.

Now you can get rid of time consuming reports forever!

Converting your reports into easy-to-read business charts can be as simple as changing a single verb.

Use PLOT and PIE instead of LIST to create professional quality business charts directly from your database.

- ACCU/PLOT-II will save you TIME analyzing information.
- ACCU/PLOT-II will save you TIME making important decisions.
- ACCU/PLOT-II will save you MONEY because TIME is MONEY!

Don't waste any more TIME, get the picture today!

Pick a Consultant

This issue of *Pragma's Product Profiles* is devoted to listing the individuals and companies who provide consulting services for Pick operating system users. The information presented here was compiled from the replies of consultants who responded to the invitations published in our last two issues.

What follows are four separate listings. The first is a list of consulting companies sorted by company name. Next is the same list sorted by state and city, followed by a list of contacts sorted by their last name. The final list contains all consultants indexed by their various specialties.

Pragma's PRODUCT PROFILES

Issue 3 • June, 1984

Published periodically by Semaphore Corporation, 207 Granada Drive, Aptos, CA 95003. Telephone 408-688-9200. Entire contents copyright © 1984 by Semaphore Corporation. All rights reserved. No part of this publication may be reproduced in any form or by any means without the prior written permission of Semaphore.

Our thanks go to the consultants for participating and making these listings possible. We hope this directory proves to be a valuable reference source for Pick users everywhere. □

Consultants by Company

Below is a list of consultants for Pick operating system users. The consultants are sorted by company name (shown in bold), and a contact name, address and phone number are included. Most entries end with a list of areas of expertise that each consultant specializes in. Individuals who consult but who do not use a company name are at the end of the list, sorted by their last name.

WIZARD II

HAVE YOU EVER ENDURED PROGRAMMING DELAYS?

WIZARD II can get your programs finished fast: bug free and fully documented. All this for far less than it's costing you now. WIZARD II can save you up to 90¢ on every dollar you now spend for software.

Our business at API is creating cost cutting programming tools. Tools that ANY employee can use, not just your data processing experts. Tools that reduce your software problems and transform your backlog into working programs...quickly.

WIZARD II provides different "levels of use." This means your employees and managers can create simple data entry screens, reports and menus as they need them. These can be up and running in minutes, leaving the really tough programming jobs for your professional DP staff—who will be using WIZARD to slash their programming time by 90%. This gives them *time to create* those NEW programs you need.

CAN WIZARD II HELP YOU SAVE MONEY?

Absolutely! We know because we have been working with scores of companies with problems similar to yours.

WHERE ARE THE SAVINGS?

- ...in software design.
- ...in robust, bug free programs.
- ...in automatically generated technical and user manuals.
- ...in program modifications each time you need them, with or without the original program author.

All of this is completed in minutes or hours instead of days or months. WIZARD II's easy-to-follow prompt and on-line tutorials assure that ALL employees can be using your system within the hour.

**IN ALL PROBABILITY, WIZARD II
WILL PAY FOR ITSELF WITHIN
A FEW MONTHS.**

CAN YOU AFFORD TO IGNORE THESE MONEY SAVING FEATURES?

Probably not! And now you have a choice ... you can rent WIZARD II for only \$200.00 a month or you can license it. ACT NOW. Call for more information.

WIZARD II

No miracle...just miraculous.

It's no accident that Microdata Corporation offers the best computer systems for today's business markets.

And the easiest to use.

We do it by designing computer systems that offer the total solution for today's complex corporate automation problems. As well as systems that will take care of tomorrow's needs. And they are the only systems in the world that understand English. The same English you are reading right now.

Our line of data base management systems has made us one of the fastest growing manufacturers in the computer industry.

And one of the most stable. We have dedicated ourselves to the orderly growth of business — yours and ours.

If you are in business, you should know about us.

Because when it comes to computing systems with total solutions,

Microdata means business. For a free brochure on Microdata's

corporate capabilities,

Special announcement:
NCE is now a factory trained service organization for the
General Automation line of ZEBRA computer systems.

National Customer Engineering, Inc. is the leading independent computer service company specializing in *PICK* based systems. NCE offers field service maintenance contracts to users of *Microdata*, *Evolution*, *Pertec*, *General Automation*, and other *PICK* systems.

Incorporated in 1981 and headquartered in San Diego, NCE has grown into a multimillion dollar company with offices nationwide. NCE's highly trained Customer Engineers are specialists in the *PICK* operating system and provide their customers with the highest quality service available anywhere.

NCE customers enjoy personal services, the fastest possible repairs, and reasonable prices. This coupled with our dedication to providing high quality, long-term support makes NCE the choice of *PICK* users for hardware maintenance.

PROBLEM:

**"How can we move data from
Machine A to Machine B?"**

SOLUTION: Data-Bridge™

DATA-BRIDGE has been developed to offer a means to transfer data between PICK machines which lack compatible media. DATA-BRIDGE requires no tapes, no hardware, and no communications control devices. For more information, write or phone Interactive Systems today.

DATA-BRIDGE
Only **\$395.00**

Over 1,000 users now have COMPU-SHEET™

The electronic spreadsheet for your PICK™ System.

COMPU-SHEET was specifically designed to combine the electronic spreadsheet concept with your PICK database. Bantam Computers, CDI, Datamedia and General Automation, plus hundreds of end users worldwide have chosen

COMPU-SHEET as the best electronic spreadsheet for their PICK-based computer systems. Find out why. For information and a complete brochure, call Interactive Systems at (602) 993-3579, or write to the address below.

For Microdata, all PICK Systems and the Prime Information System.

COMPU-SHEET

How long is an idea?

With Revelation® by Cosmos, it won't matter. Our variable length structure lets you think long or short without worrying about needing disk space you don't have, or squandering space you can't afford. Think of it. Relational Data Base Management Software that saves up to 40% of your PC's disk space.

As a powerful, enhanced version of the PICK™ Operating System, Revelation uses plain English to create files, menus, entry screens, process information and generate reports. Plus, you can build,

customize and update your data base application without being an experienced programmer.

When you introduce your IBM® PC or compatible to Revelation, you'll see it change into a friendly brute that can communicate with other computers. Also featured is a hybrid full-structured programming language with an interactive debugging tool for serious development work.

Besides bringing the power, speed and flexibility of a minicomputer to your PC, Revelation works with

MS/DOS™ so you can use all the popular microcomputer software packages with the applications you develop.

Indeed, Revelation is easy to get along with. A veritable gentle giant. But, you need to know more before you decide to buy what may become your most valuable business tool. So call us at (206) 824-9942 and let us arrange for you to see what we've got here.

MS/DOS™ of Microsoft Corp. IBM PC Registered TM of International Business Machines Corp. PICK Operating System™ of PICK SYSTEMS.
